

AMIR KANT CHAUDHARY

Computer Engineering Student | Networking & DevOps Enthusiast

Kathmandu, Nepal | +977-9744338664 | amirkant004@gmail.com

LinkedIn: amirkant-chaudhary-792a4133a | GitHub: AMIRKANT-THARU

Professional Summary

Computer Engineering student with hands-on exposure to networking, web development, Linux systems, and DevOps technologies. Completed a networking internship at NREN, gaining practical experience in networking environments and technical operations. Familiar with React.js, Django, Git, Linux, Docker, CI/CD concepts, and cloud fundamentals. Interested in Network Engineering, DevOps, System Administration, Cybersecurity, and modern infrastructure technologies.

Education

Bachelor in Computer Engineering

Final semester running

Nepal Engineering College, Changuarayan, Bhaktapur, Nepal

Relevant Coursework: Computer Networks, Operating Systems, Database Management Systems, Software Engineering, Cloud Computing, Web Development, Data Science, Artificial Intelligence and Machine Learning.

Technical Skills

Networking:	TCP/IP Fundamentals, IP Addressing, Subnetting, Routing and Switching Fundamentals, Network Troubleshooting
Programming:	JavaScript, Python Basics, HTML5, CSS3
Frontend:	React.js, Responsive Web Design
Backend:	Django, Node.js, Express.js
Databases:	MySQL, PostgreSQL, MongoDB
DevOps:	Linux, Git, GitHub, Docker, Jenkins Fundamentals, CI/CD Fundamentals, AWS Basics
Tools:	VS Code, Linux Terminal, GitHub, Docker

Internship Experience

Networking Intern – Nepal Research and Education Network (NREN) [27 April 2026 – 14 Aug 2026]

- Gained practical exposure to networking infrastructure and day-to-day network operations.
- Creating and testing network switches using physical devices and Cisco Packet Tracer.
- Applied networking concepts including TCP/IP, IP addressing, subnetting, routing, and switching.
- Configuration and troubleshooting of DHCP services on routers.
- Performing Linux file system navigation, user management, and basic system administration.
- Developed practical understanding of professional networking environments, documentation, and technical workflows.

Projects

Hybrid Intrusion Detection Method

Python, Django, Machine Learning, Network Security

- Developed a hybrid intrusion detection system that combines rule-based detection concepts with machine-learning-based analysis.
- Implemented security detection scenarios including brute-force attacks, SQL injection, rapid requests,

duplicate voting, suspicious IP activity, and admin-based rules.

- Worked with cybersecurity and intrusion detection concepts as part of the final-year academic project.

RTMS – Real Time Management System

HTML, CSS, JavaScript, Django

- Developed a web-based management system with real-time data processing and monitoring functionality.
- Built dashboards and management features to support efficient information handling and decision-making.
- Used Django for backend architecture and application logic.

School Management System

React.js, JavaScript, HTML, CSS

- Designed and developed a responsive school management website with reusable frontend components.
- Implemented interfaces for homepage, facilities, gallery, contact, and authentication-related functionality.
- Focused on responsive design, usability, and organized frontend architecture.

DevOps Practice Project

Linux, Docker, Git, Jenkins, CI/CD

- Practiced application containerization using Docker and Linux-based development workflows.
- Used Git and GitHub for source-code management and version control.
- Practiced Jenkins and CI/CD concepts for automated build, testing, and deployment workflows.

Personal Portfolio Website

HTML, CSS, JavaScript

- Built a responsive portfolio website to showcase projects, technical skills, and development experience.
- Optimized the website for different screen sizes and improved navigation and usability.

Training & Certifications

DevOps Training – Taxis Institute

- Learned Linux fundamentals, Git, Docker, cloud concepts, CI/CD workflows, and DevOps practices.
- Practiced containerization, version control, and basic deployment workflows.
